Password:

Once Application is Started, the user is asked to login. If

- 1) User enter admin username and password the app goes to admin window
- 2) User enters a user username and password the app goes to the user window

# Administrative Window

2

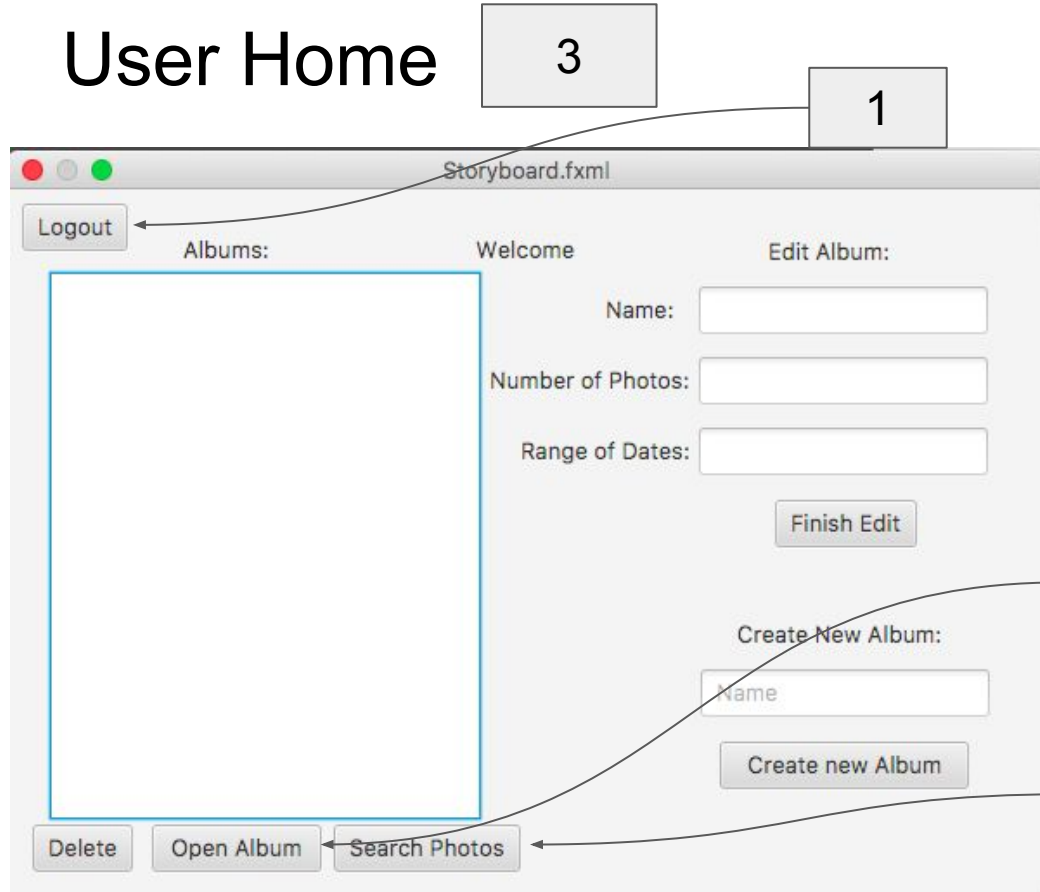

The Administrative Window UI consists of a light gray background. At the top left, the text 'Users:' is positioned above a large, empty rectangular box. At the top center, the word 'Administrative' is displayed. To the right of this, the text 'Create User:' is positioned above two input fields: 'Username' and 'Password'. Below the 'Password' field is a 'Create' button. At the bottom left, below the large empty box, is a 'Delete User' button. At the bottom right is a 'Logout' button. A curved arrow points from a box labeled '1' to the 'Logout' button.

Admin Window can

- 1) Create users
- 2) View all Users
- 3) Delete Users
- 4) Logout returning to window 1

1

# User Home

The diagram shows a user interface for a photo album application. It features a 'Logout' button at the top left. Below it is a large empty box labeled 'Albums:'. To the right of this box is a 'Welcome' section. Further right is an 'Edit Album:' section with three input fields: 'Name:', 'Number of Photos:', and 'Range of Dates:', each followed by a text box. Below these fields is a 'Finish Edit' button. At the bottom right is a 'Create New Album:' section with a 'Name' input field and a 'Create new Album' button. At the bottom left are three buttons: 'Delete', 'Open Album', and 'Search Photos'. Numbered callouts 1 through 5 point to specific elements: 1 points to the 'Logout' button, 3 points to the 'Albums:' label, 4 points to the 'Create new Album' button, and 5 points to the 'Search Photos' button. Callout 2 is not present in the diagram.
